FINE FURNITURE

It's all in the detail...

lightbulb moment

February 2019 – High Point, NC –

Bespoke furniture manufacturer Jonathan Charles lights the way for brilliant design in their new lighting collection. Ranging from 15th century French neoclassical to 1940's modernism, the collection calls upon every era to appeal to different style preferences. With wood and metal as the foundation, Jonathan Charles layers on gilded appliqués, high sheen lacquers, and exotic inlays for a sophisticated and eclectic aesthetic. Handsome shade treatments elevate each lamp to illuminate a room with grace.

Each piece is handmade by artisans to bear the signature of Jonathan Charles' craftsmanship: meticulous attention to detail, tailored carvings, and double lined and hand-stitched shades. With an in-house foundry, Jonathan Charles' team of artisans makes all hardware, from the finials down to the screws, for a truly one-of-a-kind original.

It's all in the detail...

Campaign Style Floor Lamp + Table Lamp

28" – 65" H

Inspired by the classic campaign furniture, the Campaign Style Lamps (available as a floor or table) reinterpret the British military style with modernist touches via dark santos rosewood column and a white stainless-steel mounting. A pinstripe trim around the silk linen shade adds a handsome quality.

Cats & Yarn Lamp

27" H

The Cats & Yarn Lamp is the cat's meow with a tongue-in-cheek brass cast of two felines playing with yarn. A black wood base supports the antique bronze display while a white rectangular shade mimics as an faux umbrella for the cats.

Circular Brass Floor Lamp

63" H

Drawing from midcentury elements, the Circular Brass Floor Lamp balances a round lamp shade within three 'prongs' that gather in the middle with a wood fastener to form a tripod base. The slight concave edges on the silk shade add a subtle optical illusion against the curved brass base.

Contemporary Brass Lamp

28" H

Solid brass gets forged into refined curves on the Contemporary Brass Lamp, which also features a satin gold finish over the metal base. A double gold trim on the white linen shade plays up the metallic theme.

Contemporary Floor Lamp

62" H

Black and gold meld together seamlessly on the Contemporary Floor Lamp, whose trellis-shaped silhouette lends an eclectic look that's compounded by the antique satin brass lamp shade. The Contemporary Floor Lamp is fashioned entirely out of solid brass and iron.

Herringbone Lamp

27" H

The Herringbone Lamp evokes casual seaside elegance with shell pieces in a multicolored herringbone pattern decorated around a natural whitewashed acacia wood base. The gold finish finial and rod pick up subtle metallic undertones from the capiz shell inlay.

Hyedua Floor Lamp

60" H

The Hyedua Floor Lamp makes a statuesque statement with its handsome black leather and plaid shade treatment and a triangular wood base with tapering legs. A tasseled neck adds the finishing touch for that extra level of finesse.

Round Contemporary Chandelier

41" diameter x 34" H

The Round Contemporary Chandelier proves less is more with its crisp, modernist silhouette displayed on a large scale with LED lighting. The ebonized oak halo is capped by brass fittings and connecting rods that complete the minimalist design.

Snakeskin Eggshell Lamp

29.25" H

Delicate eggshell inlay – achieved by lining up individual cracked eggshells with a resin top coat – adds a global personality to the Snakeskin Eggshell Lamp. Gold accents throughout the base complement the black lacquer backdrop.

Three Winged Lamp

29" H

Inspired by 19th century French empire style, the Three Winged Lamp features a resplendent winged tripod base entirely hand-carved from wood. Gilding is applied to highlight the depth of each feather, while an olive shade grounds the regal look.

Trumpet Art Deco Walnut Torchere

65" H

Evoking 1920's ocean liner designs, the Trumpet Art Deco Walnut Torchere brings nostalgic elements in a modern manner with a trumpet-shaped shade sitting atop a fluted column pedestal. The plated nickel shines against the carved walnut wood base.
