**March 2019 – High Point, NC** – Bespoke furniture manufacturer Jonathan Charles unveils a new collection of case goods at Spring 2019 High Point Market. Featuring a wire-brushed French oak in either light or dark gray finish, the Geometric Collection displays the beauty of the wood grain as the starring role. Set on contemporary silhouettes with minimal styling, each piece creates a dramatic statement thanks to the black mocha oak and brass strips asymmetrically inlaid throughout the wood surface. The collection spans all rooms – bedroom, dining, office – with key pieces in each category ranging from sideboards to bed to mirrors to define a cohesive and comprehensive set.
